

INTEGRATE COMMUNITY GROWTH STRATEGY

OUR APPROACH

The initiative provides a profile where ONCHAINID Accredited Investor's within a VIP Platform to create their portfolio with Projects, invite vetted accredited Investors follow their investment opportunities.

VIPs have direct access to On-Demand Ordering to minted Tokenized Securities and provide forward-thinking advancement in the evolution of digital finance and real-world asset (RWA) tokenization.

By combining a secure onboarding environment tailored for accredited individuals with cutting-edge tokenization technology, the platform at PHC Enterprise establishes an efficient and compliant framework for staging high-value capital projects.

THE PLATFORM TRUST FACTOR

Enabling verified VIP investors to collaboratively review and evaluate institutional-grade RWA opportunities directly within a secure, identity-verified ecosystem helps bridge the gap between traditional private markets and modern digital infrastructure.

This structured approach not only enhances transparency and operational trust but also significantly streamlines capital formation for innovative global ventures.

HOW THE COMMUNITY INTEGRATES

The VIP can also participate in building community forums within the profile using the VIP CRM, email services, can create investment projects independently, on established Broker-Dealer providing Advance Trading Service (**ATS**) 24/7/365.

PHCE platform will provide support service in developing their Private Placement memorandums (**PPM**) for a Security Token Offer (**STO**), arrange connections with Broker-Dealers, and Security Consults services independent to PHCE.
